

Brighton Health Center

Executive Summary

Summarizes the Site, Parking, Facility Size, Staff and Contract Health Dollars necessary for the Service Delivery Plan in 2015. Identifies the Direct Care Services Offered to include highlighting any new services. Identifies the communities and population served for each service.

The second page of the Executive Summary documents the priority resource issues as identified through the Master Planning process.

Historical Utilization by Location of Encounter

Documents 3 years of RPMS and contract care workloads provided at the facility predominantly serving the Primary Care Service Area by product line and specialty.

Historical Utilization by Community of residence

Documents 3 years of RPMS and contract care workloads provided to the user population of the Service Delivery Area by product line and specialty.

Market Assessment

Compares the Historical Workload to the Health System Planning software and to national averages of patient care utilization, projecting future workloads based upon the worst case of these three planning scenarios. Also documents the percentage of care that will require contracting due to acuity and the quantity of care that can potentially be served by the direct care system.

Service Delivery Plan

Recommended service delivery plan by product line based upon projected workload, key characteristics, patient classification and tribal and IHS input.

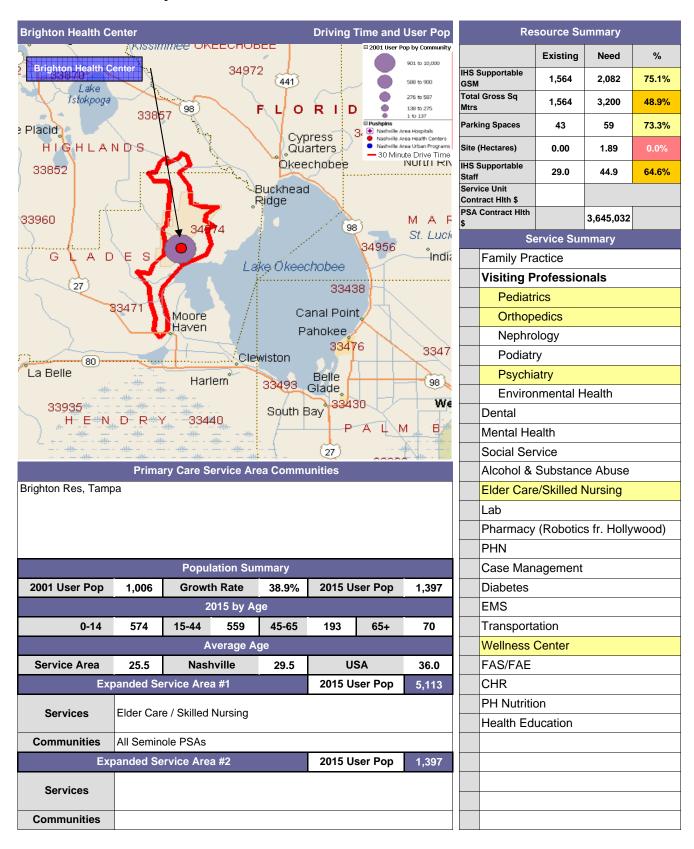

Resource Allocation

Quantifies the necessary space and key characteristics for the Service Delivery Plan and compares them against existing resources. Also tabulates necessary contract health dollars based on the delivery plan.

THE INNOVA GROUP

Executive Summary

Executive Summary

Service Area Description

The Brighton Service Area, serving the Primary Care Service Area communities listed to the left, is located on the Brighton Indian Reservation in the central Lake Okeechobee region of Florida.

As part of the Nashville Area, Brighton is a satellite of the Seminole Service Unit participating in the Seminole healthcare delivery system.

It sends most of its referral workload to Hollywood or West Palm Beach Florida. The closest alternative care options can be found in West Palm for Primary and Secondary Care, and Hollywood for Tertiary Care.

As noted in the Service Summary to the left, Brighton operates as a Health Center.

It provides a limited spectrum of outpatient health services, and a limited list of supporting ancillary services.

In the Expanded Service Area to the left, a list of services provided to the rest of the Seminole delivery system is provided.

	Services & Resourcing Priorities
1	Provide PHN staff and space.
2	Elder care service center.
3	Add alcohol and substance abuse counselors.
4	Add diabetes program staff and provide space.
5	Increase case management staff and provide dedicated space.
6	EMS staff and ambulance.
7	Add wellness center, staff and space.
8	Add facility management staff and space.
9	Additional dentist and hygienist staffing.
10	FAS/FAE staff and space.
11	Need transporter and space.
12	Visiting provider clinic space and exam rooms.
13	Specialty care space and exam rooms.
14	Add clinical lab staff and space.
15	Add administrative support staff (all areas except Information Management)
16	Provider property and supply staff.
17	Traditional healer and space.
18	

Brighton Health Center

Executive Summary

	Campus Infrastructure Priorities
1	Uneven cooling – some rooms are freezing.
2

11	
12	
13	
14	
15	

	Functional Deficiencies
1	Lab is poorly located at eh end of the building.
2	Pharmacy is poorly located (isolated with the patient access).
3	Staff bathrooms are over built with lockers and showers.
4	Intake Rooms was originally the PC waiting room. Not conducive to its function.
5	Dental – privacy issues, no divider between Ops 2&3
6	Tampa – current office space is located next to tribal official; no privacy.

Nuclear Medicine provides diagnostic nuclear medicine studies, interprets such studies, and performs therapeutic nuclear medicine treatment through the use of injectable or ingestible radioactive isotopes in conformance with licensure regulations. Functions and activities of the work center include, but are not limited to, performing clinical investigative studies, providing whole blood counting, evaluating patients suspected of being contaminated with gamma-emitting radio nuclides, consulting with patients and attending physicians, and maintaining radioactive waste disposal and storage of radioactive materials.
